BATTLE RAGING WITHOUT CHANGE

Germans Said to be Planning Raid on British Communications

FIRST LINE TROOPS.

New Movement Against Kaiser's Extreme Right Inaugurated by Allies is Progressing.

Paris, Oct., 7—The German attempt to outflank the allies on the left continues unchecked.

Try as they will, the French and British columns have been unable to check the German offensive in the northwest. (

Fighting desperately they have been compelled to give way further in the neighborhood of Douai and have fallen back to the neighborhood of Lens.

Paris, Oct. 7.—The fighting in the north continues without change. This was the only information obtainable at military headquarters this morning.

No details had been received of the movements of the new German force reported in the vicinity of Lille.

It is everywhere now accepted that this force plans a raid at the British lines of communication through the western sea coast towns.

The allies have massed thousands of troops to check it, but of necessity little information along this particular line is obtainable.

The reports that the presence of this particular force had been followed by a slackening of the attack on Antwerp are characterized here as absurd.

These forces are first line troops, part of them are said to be Austrians, and they entered the field of action, according to the reports of the aerial scouts, by rail from the direction of Cologne.

It is possible they have been drafted from the east or that they may come from Lorraine, where operations are at a standstill because of weather conditions.

Information available here says the bombardment of the Antwerp fortifications is increasing in violence. The German guns are being manned by naval reserves. In fact for the last five weeks there have been no first line troops in Belgium. All operations there are being conducted by the landsturm and landwehr.

The battle line on the northwest is constantly extending and, in consequence it has been impossible for the allies to regain the territory heretofore sacrificed to the Germans for strategic reasons.

But it is understood here that a new movement against the extreme right of the German center is now progressing rapidly and will, when completed, materially change the entire situation and give the allies a distinct advantage.

OUSTED FROM OFFICE

Court Finds Mayor and Sheriff Neglecting Their Duties

Butte, Mont., Oct., 7—Sheriff Timothy Driscoll and Mayor Lewis J. Duncan were found guilty yesterday of neglect of their duties in connection with the recent miners' riots and removed from office by Judge Roy E. Ayers, of the District Court, after a trial which lasted more than two weeks.

The court refused to grant a stay of execution of 10 days while the appeal to the Supreme Court was perfected. Both offices are vacated pending an appeal.

Mayor Duncan is removed from office because of his failure to provide the city with proper protection last June, when Miners' Union Hall was dynamited by an opposing faction of miners, and other lawless acts were committed, virtually without interference by sheriff or police. The charge against Sheriff Driscoll was similar to that against the mayor. The city council will elect a successor to Mayor Duncan, who is a Socialist.

NEWS OF THE DAY

A dispatch from Smyrna says more than 15,000 persons were made homeless by the earthquake in the village of Koniath. About sixty persons lost their lives.

Latest messages from Austria-Hungary report an alarming spread of cholera there. All schools in Budapest have been closed. New regulations imposing penalties on newspapers and persons circulating alarmist news have been adopted.

Philip K. Walcott, junior member of the law firm of Hawkins, Delafield & Longfellow, New York, jumped or fell to death from a window of the firm's office on the fourteenth floor of a downtown skyscraper.

A Rotterdam dispatch says the kaiser has telegraphed to the King of Saxony that he has inspected the Third German army, made up of Saxonians. "With such an army," says the kaiser, "We can finish the task gloriously in victory. The Almighty will stand by us."

The Copenhagen correspondent of the Faris Temps says: "Unemployment is increasing enormously throughout Germany. A riot took place in Berlin among people who had waited all night outside a cheap food store. The Vowarets says: "The misery is frightful. We are only at the beginning of the catastrophe."

After experiments with a new wireless telephone device on the roof of the ministry of marine building in Rome yesterday, Gugliellmo Marconi, the inventor, said the human voice has been heard distinctly nine miles away. For the present the new invention will be reserved for war vessels, but its use is expected soon to be extended to the mercantile marine.

A new 66-horsepower touring car of the most modern type has arrived at the White House for the President. The cost of the car, which was authorized by Congress, was $6,000. In a short time two other new cars from the same shops are to arrive for the President. One of these is to be a limousine costing $7,500. A new car of the same make—a limousine—also has arrived for the secretary to the President.

Even English thieves are showing patriotism in this great crisis, and Robert Wallace, K. C., addressing the grand jury at London sessions yesterday complimented them. "Praise is due to our criminals for the self-restraint they are exercising during this period of stress and anxiety," he said. There has been a diminution of nearly 40 per cent in crime in the county of London, a fact which gives satisfaction to all who have the interests of the country at heart.

The concern caused here by the announcement from Tokio of the seizure by Japanese naval forces of the German-owned Jaliut Islands in the South Pacific, was somewhat allayed later by the assurances from both Tokio and the Japanese embassy that the step was merely one of military necessity, and not to be regarded as one looking to permanent occupation of those islands by Japan.

Hugh Thomas Taggart, 71 years old, one of the foremost members of the Washington bar, who had been ill at his home, 3249 N street northwest, died last night. Mr. Taggart, who had been connected with most of the great cases which have come before the Washington courts within the last half century, had retired from active practice. He was born in Baltimore county, Maryland, August 15, 1844.

According to A. E. W. Mason, former member of British Parliament and noted novelist, there is no doubt whatever that already overtures have been made by Germany to the United States government to intervene as peace mediator. It is very likely that they were made with a view to throwing upon Great Britain the odium of refusal. Also it is certain that they will be made.

RICHMOND READY FOR BANKERS' MEET

Convention of American Banking Association begins Next Monday

EXPECT 5,000 VISITORS.

Elaborate Plan of Entertainment for Five Days Mapped Out—Excursion to Jamestown.

Richmond, Va. Oct. 7—Plans for the entertainment of those who attend the annual convention of the American Bankers Association here commencing next Monday and lasting five day have been completely matured by Richmond bankers and the city authorities. The Virginia city, well known for its hospitality and methods of entertainment is prepared to put forth the greatest effort of its history for the approaching convention.

The program which has been prepared offers the utmost in variety and amount. The people of Richmond, to a man, have joined in the plans for the entertainment of the visitors and delegates, and they may safely look forward to carrying away from Richmond something more than they have ever taken from other conventions.

The gratuitous entertainments run the gamut from steamer trips to old Jamestown Island, visits to historical points of interest, golf tournaments, and balls, to concerts by grand opera stars.

Preparations for the reception and care of the bankers convention were undertaken with a thoroughness in Richmond which would be difficult to surpass. The city government, bankers, and private citizens joined in contributing to a huge fund from which the entertainment features are to be provided. The most representative men in the municipal government, in the banks, in the industrial concerns were organized into a committee which was in turn split up into sub-committees to handle the countless details of the convention with systematic precision.

While the convention proper does not begin until Monday, October 12, many delegates will reach Richmond on Sunday. For them there will be a special lay service, to be conducted by men well known in financial circles, at 8 o'clock on Sunday night in the new Second Baptist Church, adjoining the Jefferson Hotel, which is to be convention headquarters.

The real entertainment begins on Monday, October 12. At 10 o'clock on that morning automobiles will begin leaving the Jefferson Hotel on tours of the multitudinous points of interest around old Richmond. At 1 o'clock visiting Rotarians will be the guests of the Richmond Rotary Club at luncheon on the roof garden of Reuger's Hotel. Tea for the ladies is scheduled at 5 o'clock in the Commonwealth Club.

At 10 o'clock, Tuesday morning, October 13, special street cars will leave the Main Street entrance of the Jefferson Hotel for a visit to the plants of the Southern Manufacturing Company and the Standard Paper Company, two large and vastly interesting establishments. Automobile tours for those who so inclined are also planned for the morning. The great golf tournament, to decide the financial golf champion of America, will begin on Tuesday morning at 10 o'clock on the links of the Country Club, of Virginia. "The Governor's Ball," at which Governor Henry Carter Stuart will receive, is on the program for Tuesday night in the magnificant new armory of the Richmond Greys.

On Wednesday morning, at 10 o'clock, special street cars will leave the Jefferson Hotel for trips to the factories of the Richmond Cedar Works, the Richmond Branch of the American Locomotive Works, and the Liggett & Meyers Tobacco Co., three industries supreme in their fields. Automobile tours are scheduled for this morning also. At 1:30 o'clock the ladies will be entertained at luncheon at the Country Club of Virginia. On the same night, at 8:30 o'clock, there will be a musical in the City Auditorium at which will appear: Miss Alma Gluck, soprano of the Metropolitan Opera Company, Antonio Scotti, baritone, of the same organization, Efrem Zimbalist, violinist of international fame, and a well known accompanist.

Other automobile tours are planned for Thursday morning, October 15, while at the same hour special motor cars will leave the Jefferson Hotel to convey visitors to the manufacturing plants of the Tredegar Works, the Albermarle Paper Co., and C. F. Sauer Co. That night, at 8 o'clock, the Richmond Advertiser Club will give a supper to visitors who are members of advertisers clubs in other cities.

The chief entertainment feature of the convention, the steamship trip to Jamestown Island, is planned for Friday, October 16. Two large and swift river steamers, amply able to provide comfortable quarters for all who may attend the convention, will leave the Old Dominion Steamship Company's wharf at 8 o'clock in the morning. Luncheon will be served on board, served after the manner of the old Virginia Plantation. At 1:30 o'clock the boats are scheduled to arrive at Jamestown Island, the site of the first permanent English Settlement in America where stands relics and ruins of the courageous settlers under Capt. John Smith in the year 1606. After a stay of two hours to allow complete inspection of the island, the steamers will sail on down the historic old James River which abounds in beautiful Colonial estates and scenery which rivals the Rhine. The ships will arrive at Newport News at 6 o'clock in the evening, the passengers going ashore there to return to Richmond by train. The special trains are scheduled to reach Richmond at 7:30 o'clock.

WOULD-BE CHICKEN THIEF.

Nocturnal Prowler Shot After Being Surprised on North Patrick Street.

Shortly before one o'clock this morning Grant Hawkins, who lives at 914 north Patrick street, near the Belle Pre Glass Works, found a negro named John Wilson, alias "Sick Boy," on his premises endeavoring to force an entrance to his chicken house. Hawkins took charge of the negro, who was armed with an iron bar, and ordered him to stand until the arrival of a policeman. Wilson refused to be taken into custody and drew a knife which he threatened to use upon Hawkins should he attempt to detain him. Hawkins had brought a gun with him, and Wilson starting to run Hawkins discharged the weapon at him. The gun was loaded with shot, and a number penetrated Wilson's back. He kept running, however, and made his escape. Officer Bell ferreted him out and took him to the station house. Dr. Powell had in the meantime examined Wilson's back and stated that his injuries were slight.

Wilson was brought before the Police Court this morning, and after Hawkins had testified the prisoner denied that he had been on his premises and said he was shot while out in the street. Justice Caton sentenced the accused to jail for ninety days. He will, of course, be subject to the roads.

BOMBARDMENT NOW IMMINENT

People of City of Antwerp Warned to Leave the Place at Once.

WILL MAKE A DEFENSE

Germans May Have Penetrated Defenses—Invaders Forced to Draw Off Troops to Defend Right Wing.

London, Oct., 7—Bombardment of the city of Antwerp is imminent and citizens have been warned to flee in an official communication according to a dispatch to the Exchange Telegraph Company. The dispatch says:

"The military governor has informed the burgomaster that a bombardment of Antwerp is imminent and that the people who wish to flee from the town are requested to leave.

"The bombardment will have no influence on the town's resistance, which will be pushed to the extreme limit."

The Exchange Telegraph Company adds that the foregoing message has been passed by the British censor for publication.

This announcement indicates that the Germans have penetrated the defenses of Antwerp. It also was said that the appearance of German troop near Lille indicated that Germany had been forced to draw off forces from Antwerp to relieve the German right wing in France, which was hard pressed by the allies.

It is announced here that the Great Eastern Railway Company's steamship service between Tilbury at the mouth of the Thames, and Antwerp has been suspended.

GERMANS ADMIT PLIGHT

Strain Said to be Almost Unendurable.

London, Oct., 7—The correspondent of the Daily News at Copenhagen telegraphs the following:

"Vivid accounts of the fighting appear in the German newspapers and the writers admit that the situation is desperate.

"The Norddeutsche Allgemeine Zeitung, describing the frontier fighting in the Vosges region says: "The officers and men have been fighting day and night for 37 days and the Germans are facing a difficult strategic situation in the mountain districts, where they are rendering superhuman services, chiefly in water filled trenches and under almost undescribable conditions.

"The strain is said to be almost unendurable. The French are fortified in excellent positions on the Vosges and it is impossible to see their guns. No German troops have been able to retire from the fighting line for rest.

"The army chaplains accompany the troops right to the front and are holding religious services and preaching sermons in the trenches.

"Bad weather is causing much sickness."

The jury after several hours deliberation returned true bills in the following cases:

Russians Buy Trucks.

The Russian government, which has been negotiating with the Packark Motor Company of Detriot, Mich., for several weeks for motor trucks, for use in the army, has closed a contract for the purchase of 180 of their automobiles. The terms are private, but it is estimated the order amounts to nearly $750,000. Within a few minutes after the closing of the contract representatives of the company were speeding about the city in motor cars, notifying men who had been laid off to return to work at once.

RUSSIAN ARMY FORGES AHEAD

Crossed Carpathians and Have Entrenchments and Other Works.

NEARING BUDAPEST

Plenty of Food and Ammunition—German Retreat Along Frontier of East Prussia Continues.

Petrograd, Oct 7—The front of the advancing Rusian army now marching against Germany and Austria extends from a point near Memel on the Baltic, to the region south of the Carpathians, in Hungary.

The main Rusian army is continuing its advance from the interior through Warsaw in the direction of Posen and Breslau.

The right wing is moving in the direction of Koenigsberg and Danzig.

The left wing is advancing against Cracow with the intention of resuming the offensive against the Austrian troops now reassembling around that city.

A large force is pursuing the seige of Przemysl, where fighting has been very severe on several recent days.

The Russian forces are now within eighty miles of Budapest, and news has reached the Russian general staff that intrenchments and other defense works are being hastily constructed around the city.

Nothwithstanding the vast forces in the field which already have been operating at great distances from their respective bases, the commisariat department has discharged its duties most efficiently, the supply of food and ammunition having been consistently regular.

Paris, Oct., 7—Telegraphing from Petrograd the correspondent of the Havas News Agency transmits the following official communication:

"The German retreat continues along the frontier of east Prussia. The Germans have been forced to evacuate their fortified positions between Wirballen and Lyck."

COTTON SHIPPED TO FRANCE.

New York, Oct. 7.—For the first time since the war started in Europe, a direct shipment of cotton from this country to France was made yesterday. It is supposed most of the cotton which has been reaching France has gone through Great Britain, but yesterday's consignment was to Havre.

The total exports of cotton yesterday were 29,812 bales. This included 3,405 bales to France, 5,478 bales to Great Britain, and 7,456 to other points on the Continent. More than 12,000 bales went to Japan and approximately 1,250 bales to Mexico.

This represents a gain compared with recent weeks. Exports for the season to date have totaled 181,721 bales. Ltst year in the same period 1,232,854 bales were exported.

Receipts of cotton at leading points were heavier in most cases than on Tuesday a week ago, but they were much lighter than a year ago.

INTERESTING SERVICES

Evangelist Starke Delivers Sermon at Revival Meeting in Methodist Protestant Church Last Night

The services in connection with the Methodist revival at the M. P. Church during the past two nights by Evangelist Lee Starke, a former newspaper man of New York City, have proven interesting. Mr. Starke preached to large audiences and made a fine impression on his hearers. The evangelist is a Virginian by birth and is a brilliant and forceful speaker, and fully realized the expectation of his hearers. He has a personality that draws large crowds of non-church going people as well as members of other churches of the city are attending the meetings. The speaker's earnest ness is pronounced.

The church will no doubt be crowded at each service as it has not been for years.

The singing of a special choir will be a feature of each service. Mr. Henry K Field will have the direction of the music. Mr. Starke will preach every night this week and twice Sunday. The public is cordially invited to each service. A special invitation is extended to every Christian, of all denominations. The subject of the evangelists address tonight is "A Clean Heart."

CARRIED GOLD TO POPE.

Cardinal Feared to Send it Through Formal Channels.

Baltimore, Oct. 7.—Some incidents in connection with the recent visit of Cardinal Gibbons to Rome, which had been hitherto unknown, have been made public in a letter which the local prelate wrote to his brother in New Orleans.

It had not been generally known that, on his second visit to Rome, Cardinal Gibbons, as well as some of the other bishops, carried with him a large quantity of gold, representing collections for the Pope recently taken up in this country. This money is usually sent to Rome through formal channels, but because of the outbreak of the war and the need of gold Cardinal Gibbons and the other bishops going to Rome carried the money with them.

NO FALL PLOWING.

Drought in Lynchburg Section Causes Delay—Many Streams Run Dry.

Lynchburg, Va., Oct. 7.—On account of the drought prevailing in central Virginia, small streams in the country districts are without water for the first time in the memory of old residents. The supply in the Lynchburg storage reservoir on the Pedlar river, twenty-two miles from the city, has fallen nearly nine feet in the dam, which holds about 500,000,000 gallons. While the supply is not in danger yet, it is but a few inches above the lowest record.

The government guage in the James river here registers 0.. feet this being only .3 of a foot above the lowest point the river has ever touched here.

On account of the dry weather the farmers have done practically no fall plowing.

DATE SET FOR HEARING

Supreme Court to Hear Frank's Plea October 26th.

Atlanta, Ga., Oct., 7—The Georgia Supreme Court, it was announced yesterday, has designated October 26 for the presentation of arguments on the motion whereby Leo M. Frank seeks to have set aside the verdict pronouncing him guilty of the murder of Mary Phagan. Frank is now under sentence of death. His motion to set aside the verdict is based on the claim that his constitutional rights were violated when the verdict was returned during his absence from the courtroom. There also, is pending in the Supreme Court an extraordinary motion under which Frank seeks a new trial on the ground of newly discovered evidence. A decision on this motion is not expected until after the other matter has been disposed of.

HELD AS MASHER.

Young Man From Orange Penalized for Offensive Conduct Toward Girl.

Richmond, Oct. 7.—W. E. Gravatt, of Orange county, giving his age as twenty-one and his occupation as farmer, was fined $25 in Police Court yesterday on a charge of "mashing."

The young man was accused of making insulting remarks to Miss Mary McGuffin, about fifteen years old.

The girl went to Turner's drug store at Twenty-first and Main streets about 10 o'clock Monday night on an errand for her mother. As she emerged from the store, she alleged that Gravatt approached her, addressing her in objectionable manner and following her nearly to her home.

The prisoner denied that he had been guilty of misconduct, although he admitted that he had been drinking a little.

In default of payment of the fine Gravatt was committed to jail. He had only $7:20 on his person when arrested.

URGING ITALY TO WAR

Newspaper of Rome Declare Country Will oppose Austria.

Rome, Oct., 7—Italian newspapers declare that the prospective changes in the Cabinet made it certain that Italy would declare war against Austria.

The editorials demanding that this country completely throw off the bonds of the triple alliance are growing in strength daily.

"Another Italian steamship has been blown up near Trieste by an Austrian mine, and fifty lives have been lost," says one of the leading papers. "How much longer will Italy tolerate the duplicity of Austria? While that country is apologizing for the loss of life that she already has caused to Italy her agents are secretly laying more mines."

Monday night passed without any attack on the German and Austrian embassies, but the strong guards placed there were retained yesterday and cavalry was held in readiness at the barracks to charge the mobs if they showed a disposition to become destructive.

STUDENTS IN A RIOT.

Two Thousand Attack Police Station Where Three Were Held.

Madison, Wis., Oct. 7—Pleas of not guilty were entered in court yesterday by four University of Wisconsin students and four town boys charged with rioting in Monday night's disturbance on Capitol Square when 2,000 students made an attack on the police station, where three of their fellows were incarcerated. Others arrested will have a hearing tomorrow.

Mayor Kayser says if the police department is unable to check such riots other forces more powerful, meaning the militia, can be invoked to protect the peace and quiet of the city.

WAR IN EAST PRUSSIA

ifficult Problem Confronting Russian Army.

London, Oct., 7—The correspondent of the Daily Mail at Petrograd, referring to the defeat of the Germans says there is little doubt that the Russians intend to follow up the advantage gained and continue their advance across the frontier, but that the problem confronting them is very difficult.

The Mazur Lake region, whither the bulk of the beaten army has retreated according to the correspondent, is one huge armed camp, extremely well adapted for a stubborn defense, both in natural formation and because of its strong fortifications.

The task, however will be easier than it was in August, he says as the German forces are greatly shaken by the recent fighting.

The Russian papers ascribe the German offensive in this region to Emperor William's personal initiative and point out how his nervous, restless individuality has been reflected in all German operations since the beginning of the war. They call attention to the lack of continuity and the sudden shifting of the center of gravity from one point to another and an inclination to have too many irons in the fire and ascribe some of the difficulties which the German Emperor misled General Von Hindenburg with exaggerated accounts of supposed victories in France.

MILLER KILLED.

Caught on Pulley, Whirls Till Bones Break.

Williamsport, Pa., Oct. 7.—James Rockwell, aged 37 years, a miller in the employ of Preston & Jaquish, at Troy, Pa was found dead late Monday afternoon in the basement of the mill, every bone in his body being broken; his right arm having caught in a pulley, which whirled him to death.

On the floor above Rockwell's wife heard the pounding, he having just left her to go to the basement; but she thought he was using a hammer to repair something beneath the mill, and knew nothing of his death until later.

DUEL ON TANK STEAMER.

Engineer And Firemen Exchange Shots on the City of Everett.

Beaufort, N. C., Oct. 7.—Two wounded men of the crew of the tank steamer City of Everett were brought ashore at Beaufort yesterday to be turned over to local officials after a revolver duel aboard ship in which neither was mortally wounded.

It was charged that Jacob Ross, a fireman, soon after the steamer left Baltimore, fired on the second engineer, H. Swanson.

The engineer, who was hit in the face, returned the fire, wounding Ross in the head.

The Everett anchored off the Beaufort bar and sent for police and a physician but the steamer's captain took the two men ashore.

THIN FOLKS MADE FAT.

The Way Samose Works its Wonders Guaranteed by Leadbeaters.

More than half the readers of the Gazette would give almost anything to be plump and rosy instead of thin and scrawny.

Physicians and chemists for years have studied the problem of making a flesh forming food, but it is only within the last few months that a bright man discovered the prescription that taken with the daily meals give a positive increase in flesh. In fact it was so certain in its aciton that a guarantee was attached to each package stating that if weight did not increase as a result of using it, the purchase price would be refunded.

This preparation is now put in convenient form for use under the name of Samose.

Leadbeater & Sons have secured the agency in Alexandria for Samose and as the percentage of satisfactory results from the use of this prescription, is so nearly one hundred per cent they feel there is no risk in offering to refund the money if Samose does not do all that is claimed for it.

Everybody that is thin and out of health should begin today the use of Samose with a guarantee like this.

ONLY SURE CORN CURE EVER KNOWN.

"Gets-It" the New Way. It Does do it.

To endure pains and aches caused by corns is ridiculous, almost criminal, when it is unnecessary. There is a sure corn cure.

"GETS-IT" is the first one ever known to remove corns without fail, without pain and without trouble. This is why it is the biggest-selling corn cure in existence today. It is now used by millions, because it does away with sticky tapes with plasters and cotton rings that shift their position and press down onto the corn, with salves that "raw up" the toe, with "harnesses" that cause pressure and pain, with knives, razors and files, clawing and pulling at a corn.

"GETS-IT" is applied in two seconds. Two drops applied with the glass rod do the work. Pain goes, the corn shrivels, vanishes. Accept no substitute. Try it on any corn, wart, callus or bunion tonight.

"GETS-IT" is sold by druggists everywhere, 25c a bottle, or sent direct by E. Lawrence and Company, Chicago.

DEMOCRACY SOLIDIFIED.

With all elements united and with a list of achievements challenging the record of any previous administration the Democratic party faces the biennial Congressional elections with complete confidence.

The wisest politicians in both parties in the nation are forced to concede both the unity and the achievement and to agree that such a combination must prove irresistable in the first general election the Democrats have faced since their return to power. A party united, with its promises religiously kept, they admit, cannot fail at the polls. And that internal harmony, as November approaches, marks the downfall of the most cherished predictions of the Republican and Bull Moose prophets. Also, it dissipates the fear of many Democrats of all factions.

Political conditions at this time in Virginia are practically unchanged. The Old Dominion will be found, as usual, in the democratic column where it has been during over a third of a century with no indication of variation of shadow of turning. In some cases republicans are making a show of running for Congress but their candidature is not regarded seriously by the democrats.

Alexandria holds a high position in the democratic column, and it is hoped all democrats will vie in forging the majority to still higher figures.

TRUTH AND FICTION IN WAR.

If the censorship on war news has been established to suppress untruth the attempt has miserably failed. Some of the censors, particularly the official editors of Petrograd, did not even try to curb unveracity; on the contrary, they added prevarications of their own to those of the imaginative correspondents for London and Paris newespapers. A classic instance was the reported capture of 350,000 Austrian prisoners at Lemberg whereas itis now known that there were only three and a half Austrians army corps in all Eastern Galicia at the time of the fall of that city, and that a large part of this force made good its retreat. Exaggeration is not characteristic of all official censors, however; their fault is the suppression of the truth rather than the spreading of falsehood. But if they shou'd undertake to suppress the fictitious as well as the true reports we should be deprived of a good deal of entertainment.

A correspondent who was at the front in Eastern Galicia reports that all he saw, in the course of a serious engagemert there, was a vast plain, relieved only by a rise of ground near the horizon. Lying here and there, at wide intervals, were seen objects looking like bundles of rags, which the glass revealed to be the bodies of slain men. Puffs of smoke indicated intrenched lines, from which from time to time, there would emerge forms, jumping like overgrown frogs; they were riflemen, advancing or retreating from one trench to another. A big wounded Hungarian was thrashing his arms wildly to ward off a willing nurse, declaring that as long as he had one sound leg left he would prefer to hop to the field hospital without help.

These are but a few of the absurdities being sent by correspondents.

Check the Symptoms of Lung Trouble

One of the many reasons why Lung Trouble is so difficult to fight is because the disease is often of a very flattering nature. The patient may look well, but in reality is fast losing strength by continued night sweats, fever and cough. These symptoms should be checked as quickly as possible. Eckman's Alterative is beneficial in checking fever and night sweats and it has brought about many complete recoveries. Read this case:—

305 W. 36th St., New York.

"Gentlemen: I am writing you this testimonial that others may know what your Alterative has done for me. Since I was a very young woman I was a sufferer from Bronchitis. I tried doctor after doctor, getting little or no benefit. Finally I had night sweats, weak spells and lost rapidly in weight and my doctor told me if they were not checked I would have Lung Trouble. Miss Mary Korhamer, who is a friend of mine, recovered after taking your Alterative and insisted that I try it. I am now, after two years, perfectly well, strong and healthy."

(Affidavit). MRS. ROSA VOELPEL.

(Above abbreviated; more on request.)

Eckman's Alterative has been proven by many years' test to be most efficacious for severe Throat and Lung Affections, Bronchitis, Bronchial Asthma, Stubborn Colds and in rebuilding the system. Contains no narcotics, poisons or habit-forming drugs. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for evidence. For sale by all leading druggists.

NEAR DEATH BY SMOTHERING

But Husband, With Aid of Cardui, Effects Her Deliverance.

Draper, N C.—Mrs. Helen Dalton, of this place, says: "I suffered for years, with pains in my left side, and would often almost smother to death.

Medicines patched me up for awhile but then I would get worse again. Finally, my husband decided he wanted me to try Cardui, the woman's tonic, so he bought me a bottle and I began using it. It did me more good than all the medicines I had taken.

I have induced many of my friends to try Cardui, and they all say they have been benefited by its use. There never has been, and never will be, a medicine to compare with Cardui. I believe it is a good medicine for all womanly troubles."

For over 50 years, Cardui has been relieving woman's sufferings and building weak women up to health and strength.

If you are a woman, give it a fair trial. It should surely help you, as it has a million others.

Get a bottle of Cardui *to-day*.

There are many times when one man questions another's actions and motives. Men act differently under different circumstances. The question is, what would you do right now if you had a severe cold? Could you do better than to take Chamberlain's Cough Remedy? It is highly recommended by people who have used it for years and know its value Mrs. O. E. Sargent, Peru, Ind., says "Chamberlain's Cough Remedy is worth its weight in gold and I take pleasure in recommending it." For sale by all dealers.

FATHER STUMPED THEM.

A Test in Mental Arithmetic That Worried the Students.

They had a schoolboy and schoolgirl party at a Brooklyn man's house the other night. Father and mother were permitted to mingle with the young folks for awhile after the edge of the first fun had worn off. There were games that the elder folks knew nothing about, and they sat like wallflowers.

Finally a game of arithmetic was started by a boy who is considered the best cipherer of his class in the high school. After several problems had been given of an odd nature, over which there were much laughing and puzzling, father dared to speak up. Said he:

"Boys and girls, they used to give us this example in mental arithmetic when I went to school. I suppose it will be easy for you, but it's the best I can suggest to take part in the game." And he recited this couplet:

If a third of six were three
What would a fourth of twenty be?

The score of boys and girls present went at it. They wrinkled their brows, and they pursed their lips. The use of pencil and paper was not permitted.

The mathematician had not been among the first to try an answer. He was plainly a little perplexed. He asked to have the problem repeated and wanted father to reassure him that it was a mental arithmetic example. Finally he, too, gave an answer. But father shook his head.

"Well, then, papa, for goodness' sake tell us what it can be," said his daughters.

"The answer is seven and a half, and I'm surprised to see that I'm able to stump all you high school stars," grinned father. "Come, mother, we may as well depart. They don't play the same arithmetic games that we did."

The high school mathematician at first declared that father was in error. But next day he admitted that the answer was correct and that all had been stumped.—New York Sun.

AN OLD TALE OF TWO CITIES.

Travel From New York to Philadelphia In Stage Wagon Days.

In the New York Gazette or Weekly Post-Boy of May 9, 1768, appeared this notice:

To the Public:

That the Stage-Waggons, kept by John Barnhill, in Elm-Street, in Philadelphia, and John Mercereau, at the New-Blazing Star, near New-York, continues their Stages in two Days, from Powles-Hook Ferry, opposite New-York, to Philadelphia; returns from Philadelphia to Powles-Hook in two Days also; they will endeavor to oblige the Publick by keeping the best of Waggons and sober Drivers, and sets out from Powle-Hook and Philadelphia, on Mondays and Thursdays, punctually at Sunrise, and meets at Prince Town the same Nights, to exchange Passengers, and each return the Day after:

Those who are kind enough to encourage the Undertaking, are desired to cross Powles-Hook Ferry the Evenings before, as they must set off early. The Price for each Passenger is Ten Shillings to Prince Town, and from thence to Philadelphia, Ten Shillings more, Ferriage free: There will be but two Waggons, but four sets of fresh Horses, so it will be very safe for any Person to send Goods, as there are but two Drivers: they may exchange their Goods without any Mistake.

Persons may now go from New-York to Philadelphia, and back again in five Days, and remain in Philadelphia two Nights and one Day to do their Business in: The Publick may be assured that this Road is much the Shortest than any other to Philadelphia, and regular Stages will be kept by the Publick's obliged humble Servants,

JOHN MERCEREAU and
JOHN BARNHILL.

To Prevent Exaggeration.

There was once a gentleman who having killed a man, presented himself to the editor of a newspaper "I have come," he said, "to tell you about a painful occurrence at my house. My brother-in-law and I had an argument, and I stabbed him, and then, in the excitement of the moment, I cut his throat. Knowing what exaggerated stories are apt to get into the newspapers, I thought I had better step around and tell you exactly what did happen."—London Spectator.

Ice Peaks of New Zealand.

In southern New Zealand the line of perpetual snow is much lower than it is in the Alps of Europe. It varies, of course, in different parts of the range; but, generally speaking, a mountain 12,000 feet in New Zealand carries as much snow and ice as one of 15,000 feet in the Swiss Alps, and New Zealanders point with pride to glaciers comparable to the Aletsch and the Mer de Glace.

Just to Prove It.

"You have squandered my entire fortune."

"Well, before we were married you asked me if I would love you as well if you were poor, and I said I would, and I have made you poor to convince you I told the truth."—Houston Post.

His Genius.

"Why do people think he's a genius? Nobody can understand what he's talking about."

"No, but he can make people believe that he does."—Exchange.

FACIAL FOLIAGE.

Looking For Mother's Spectacles In Father's Whiskers.

In the American Magazine James Montgomery Flagg writes an amusing piece entitled "Whiskerculture." Following is an extract:

"It's a heartrending sight in any case, this facial landscape gardening, from the time that they innocently say at breakfast, 'You forgot to shave this morning, dear!' (it has taken three days for even the rough sketch you show them) to the dreadful harvest of your noxious inspiration.

"Picture the nervous strain on the wife and babes as they witness the gradual budding (blossoming) and fruition of the horror. How they sadly watch the head of the house slowly disappearing in a cloud of brambles.

"See those outstretched dimpled arms and hear those sobbing voices, 'Come back to us, papa!'

"Isn't your pride touched on the raw when your wife lifts up the door mat in the vestibule and kisses it good night on account of its comparative silkiness? Stop, consider, you who through some inherited mental weakness do not know the difference between right and whiskers—hesitate! Why add to the strain of family life? Even if you have provided your wife with a vacuum cleaner why multiply the cares of a busy housekeeper?

"Ask yourself if it will add in any way to the pleasure of any one in the family. When your mother has mislaid her steel rimmed spectacles does it not make one more place that has to be ransacked?

"Men who embark on a career of whiskerculture are obviously thoughtless. What man would cultivate wistaria chinensis on his chin if he visualized himself at some future breakfast having to loop up those vines with portiere cords in order to slide a poached egg in without mutilating it?"

OBJECTS ON THE MOON.

The Size They Must Be to Show In Our Different Telescopes.

The Abbe Moreux, director of the astronomical observatory of Bourges, France, answers in Cosmos the question, "What is the smallest object visible on the moon?"

First, it is necessary to know what is the smallest angular magnitude that the naked eye can perceive. Experiment, says the abbe, proves this to be thirty seconds. In other words, an object that subtends an arc of thirty seconds is first visible to the naked eye. Therefore an object having an angular diameter of one second can be seen when it is magnified thirty times. An arc of one second represents about 6,000 square feet at the center of the lunar disc. Hence, a telescope that magnifies thirty times will make visible a spot 6,000 feet in diameter on the surface of the moon.

A more powerful telescope will reveal smaller objects. One with four inches aperture and a power of 300 will show objects of 600 feet diameter. One with a power of 2,000 diameters will reveal details measuring about ninety feet.

This, however, is theory. It takes a trained and practiced eye to see fine details through a telescope. The agitation of the earth's atmosphere by winds and currents interferes terribly with the use of very high powers in telescopes. An enlargement of 400 diameters almost exceeds the practical limit. It can be used only on perfectly clear, still nights when the moon is high above the horizon. This will reveal objects 450 feet in diameter, but will not show any form or detail.

Levels of Atlantic and Pacific.

At certain stages of the tide the levels of the Atlantic and Pacific oceans at the isthmus of Panama differ materially. At Colon the difference between high and low water is not much more than twenty-three inches, while at Panama it is generally thirteen feet and at times as much as nineteen feet. The current that would be produced by this condition of things in a sea level canal would seriously interfere with navigation, but under the present arrangement of a locked canal the difficulty is obviated. The Suez canal presented no such difficulty, the difference in tide level at Port Said and Suez being of a trifling nature.—New York American.

An Old Acquaintance.

A resourceful girl, having danced a pink party frock to ribbons, took what was left of it and made a wonderful lamp shade. The next evening she was entertaining a caller in the soft light and she said to him quite casually "How do you like my new lamp shade?"

William regarded it for a moment critically, then he said: "The last time I saw that shade I danced with it."—New York Post.

Imposition.

"I don't see why lawyers should get imposed on so much," said Farmer Corntossel.

"Imposed on!"

"Yes. Every time one gets a government office he says he is compelled to give up a lucrative practice."—Washington Star.

FOR NATIONAL PROHIBITION

Massachusetts Bull Moose Put Plank In Platform.

Boston, Oct. 7.—The Progressive party, at its State convention yesterday, declared in favor of national prohibition. This stand was taken only after a sharp discussion enlivened by personalities, during which one of the speakers hinted that paid representatives of the liquor interests were on the convention floor.

Joseph Walker, of Brookline, the primary nominee for Governor, had indorsed the incorporation of the prohibition plank in the party platform. Charles Summer Bird, of Walpole, Progressive candidate for Governor in the last two years, questioned the moral right of the Government to prohibit the use of alcoholic drinks in this country and urged that the convention favor only a referendum on the subject, instead of taking an absolute stand. His recommendation was defeated, by a vote of 232 to 130.

Human Factors in Good Service

There are three parties to every telephone conversation—the party calling, the trained operator, and the party who answers. All three share alike the responsibility for quick and accurate telephone service.

The calling party should give the correct number in a distinct voice, speaking directly into the transmitter, and wait at the telephone until the party answers or the operator reports. The called party should answer promptly.

Patience on the part of the telephone user and the telephone operator is also essential to good service.

TRAIN BEHEADS SLEEPER.

Man Barred From Cars Takes Fatal Nap on Track.

Oxford, Pa., Oct. 7.—Beheading Leander McCauley as he lay on the tracks just outside of Oxford, the afternoon train on the Lancaster, Oxford & Southern Railroad killed its third person in 45 years of railroading.

McCauley lived at Taylors, and had come to Oxford to shop. While here it is claimed, he became confused, and when he tried to board the train that was to take him to his home he created such a disturbance that they refused to allow him to get on.

He started to walk along the track, but evidently grew tired and lay down to sleep after going about a mile. The train he was to have taken was the one that struck him, cutting off his head and one leg.
